

# What's so great about plants?

FRIENDS of the ENVIRONMENT  
ABACO, BAHAMAS

The GEF  
Small Grants  
Programme  
The Bahamas

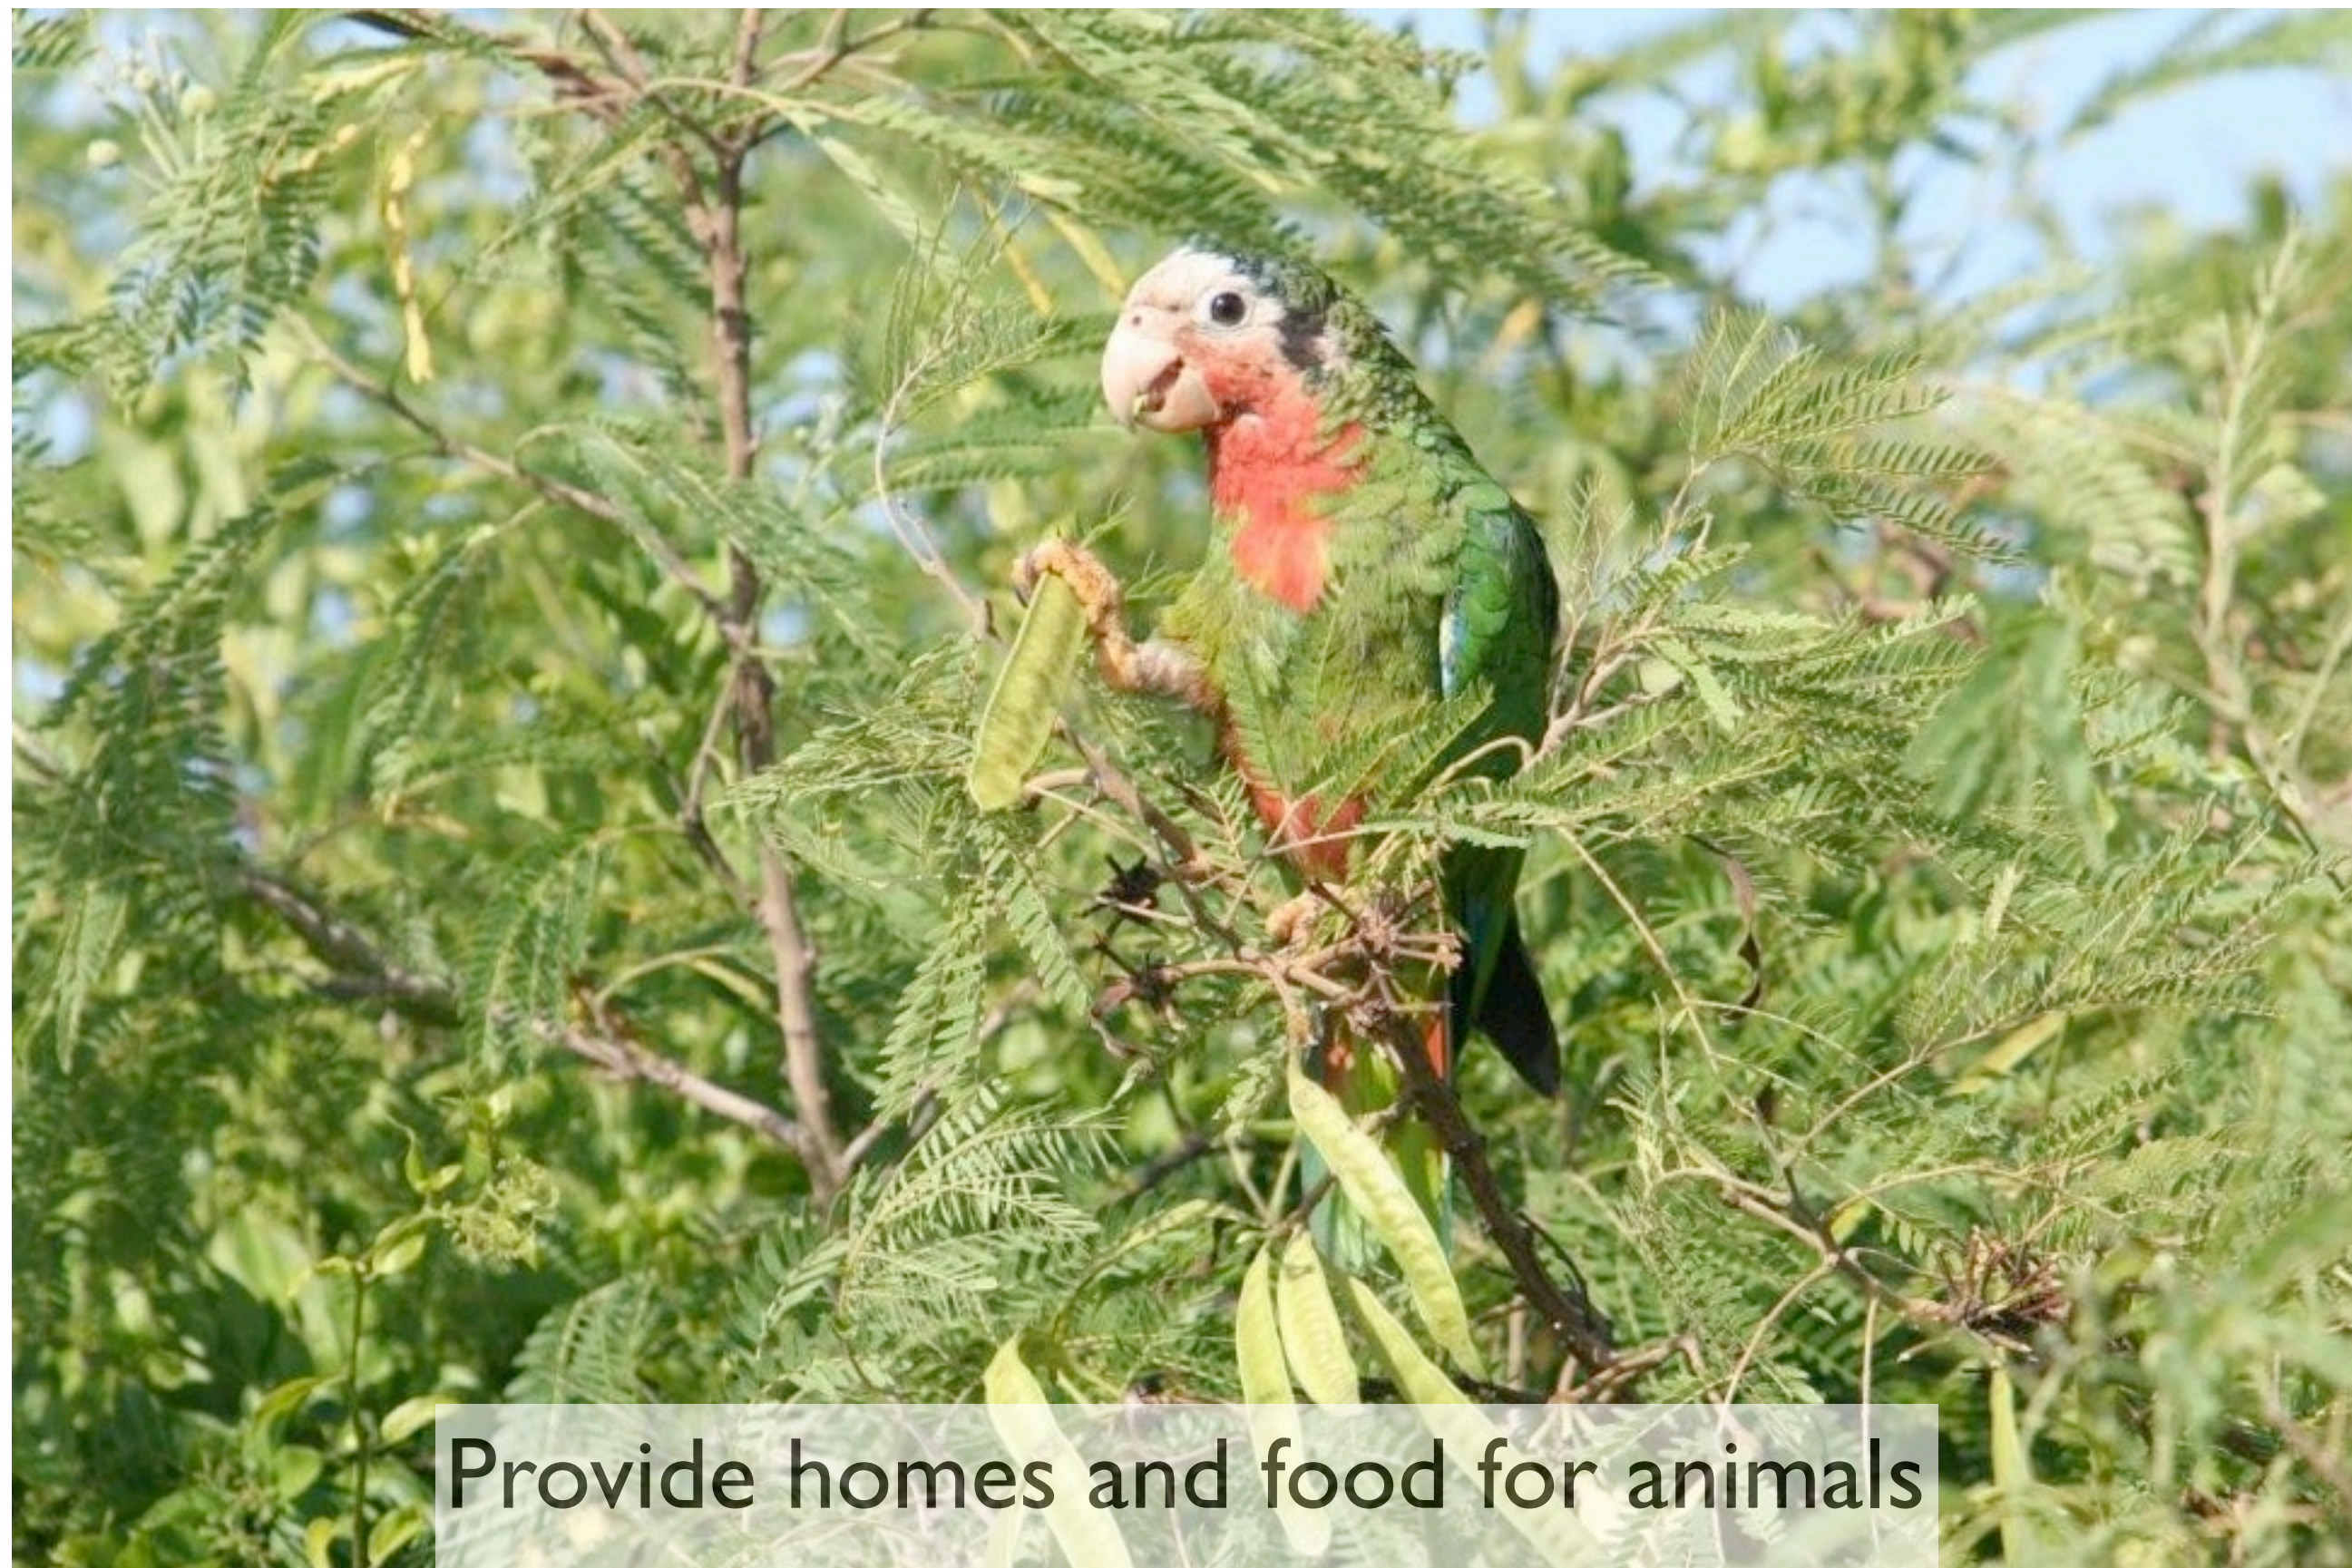

This project is supported by the GEF Small Grants Programme  
<http://www.sgpbahamas.org/>

Clean Air

Provide homes and food for animals

# Healthy Environment

Clean Water

Reduce Erosion

**The more kinds of native plants,  
the healthier the environment!**

**Invasive plants can make the environment  
less healthy.**

# **You and Your Family Can Help!**

Buy Native Plants

Keep a Native Plant garden

Remove Invasive Plants

Share what you learn with others

**Step 1:**  
**Remove**  
**Hawaiian Seagrass**

**Step 2:**  
**Send us a photo**  
[info@friendsoftheenvironment.org](mailto:info@friendsoftheenvironment.org)

- Survey your property to identify Hawaiian Seagrass, choose an area to remove and send us a photo! We'll promote on Facebook and our website

### Step 3:

**FRIENDS** will award you with  
token native plants and a  
sign to show your  
participation

### Step 4:

Replace the  
Hawaiian Seagrape  
with native plants

- Use the native plants to help replant the area you just removed Hawaiian Seagrape from

# Step 5: Tell a friend to Go Native!
